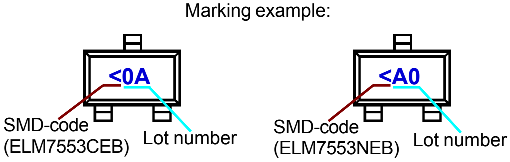
Adittional SMD info

Besides SMD code manufacturers can place additional information such as internal production lot number, traceability code, data of production, assembly location etc. The adittional info is an arbitral position and arbitral content (depending of the manufacturer) and can be alphanumeris symbol (symbols) or graphic symbol.

Below we present some adittional info.

Lot number.

Manufacturer: Elm (ELM Technology Corporation):
Rules 1 (for ODO voltage detectors)
Symbol 1 - A to Z(I, O, X excepted)
Symbol 2 - 0 to 9
Rules 2 (for PPO voltage detectors)
Symbol 1 - 0 to 9
Symbol 2 - A to Z(I, O, X excepted)



Manufacturer: Tor (Torex Semiconductor LTD):
01~09, 0A~0Z, 11~9Z, A1~A9, AA~AZ, B1~ZZ repeated, (G, I, J, O, Q, W excluded.) * No character inversion used.

TURUTA ELECTRONICS WORLD

SEMICONDUCTOR COMPONENTS DATABOOKS, SERVICE MANUALS, DATASHEETS, REPAIR TECHNOLOFIES INFO

Since 2008 TURUTA ELECTRONICS WORLD are the worldwide leading publisher of e-format databooks for semiconductors info like transistors, diodes, thryistors, integrated circuits. Any electronic engineer nowadays is able to work sensibly and rationally with our products as databooks and online database. Anybody missing vital information at the decisive moment is throwing away expensive work time. We will help saving your time, nerves, energy and money. Trust a company being more than 6 years on the market.

Online SMD-codes and leaded components marking database

A monthly updated online database that includes now marking codes for different SMD and leaded, passive and active electronic components like fuses, diodes, thyristors, transistors and integrated circuits.

• **Features:**

- Search by marking code;
- Search by marking code with case class (pin number) selection;
- Exhaustive info about found electronic component;
- Direct link to a electronic component datasheet download;
- Direct link to a manufacturer web page.

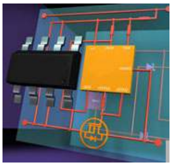
Service manual

Service manuals for fax, printer, copier, mobile and wireless phone, amplifiers, car stereos, cassette decks, Blu-ray/DVD/CD players/recorders, compact stereos, equalizers, receivers, cameras, reel recorders, tuners, and other audio equipment, camcorders, monitors, TVs (including LCD, plasma PDP, projection TVs), and TV/Blu-ray/DVD/CD/VCR combo units. We have more than 80.000 documents in our growing collection!

Service manual pages navigation and searches available for any TEW visitors.

Free service manual download available only for subscribed member of TEW.

Datasheet collection



More than 250.000 datasheets - audio application integrated circuits such as preamplifiers, volume and tone controller, audio processor, audio power amplifiers; power management integrated circuits, industrial application integrated circuits available on your collection.

Electronic format databooks

TURUTA ELECTRONICS WORLD are the worldwide leading publisher of e-format databooks for semiconductors info like transistors, diodes, thryistors, integrated circuits.

• SMD-codes datbook, 2014 Edition

A new 2014 edition SMD-codes databook in electronic format from a known author Eugeniu Turuta presents the SMD-codes for active semiconductor components. This book includes now 235.000 SMD-codes for different semiconductors like diodes, thyristors, transistors and ICs.

• STK and STR integrated circuits, 2014 Edition

Data book about the common and very popular STK (Sanyo) and STR (Sanken) hybrid integrated circuits. Over 2.000 circuits from STK0025 to STR-Z4579.

Connection diagram, application, short description, table of characteristics with all common parameters, replacements, case outline drawings available for all integrated circuits.

• Power audio amplifiers - integrated circuits, 2014 Edition

A new, 2014 edition data book in electronic format from a known author Eugeniu Turuta presents the standard and modified circuit diagram, short description, electrical characteristics, pinouts and conventional case drawings of the integrated circuits - power audio amplifiers.

This book includes about 7000 most popular integrated circuits - power (final) audio amplifiers and for today is the most complete databook in the world.

TEW visitor can download sample (demo) version of all databook.

Purchase of TEW databooks is very simple and can be made directly from web-page trough PayPal payment system. If you don't have access to the PayPal payment system, write to a eturuta@gmail.com.

A new editorial policy of TEW allow to propose already existing customers (any TEW old edition databook buyers and subscribed mebers) the special (discount) price for the news databooks.
